

sixteen3

Calvert

Breaking up a grid system to create spaces to focus, collaborate, relax and inspire. Steel frame walls, available in three heights, act as room dividers, with the louvre-style grid pattern diffusing visibility between areas without creating a definite wall.

---

## End Frames:

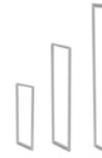

End Frames need to be fitted to the ends of all wall runs, capping off fixing holes, aiding rigidity and creating an enclosed frame appearance.

When additional rigidity is required, such as when Drop-in desks are used, Slatted or Panelled End Frames are recommended.

Panelled End Frames Available in Natural Birch Ply, Valchromat in Light Grey or Black, or upholstered. Custom finishes P.O.A

## Link Frames & Corner Kits

Link Frames allow walls of varying heights to be connected, as well as providing fixing points for Corner Kits.

Corner Kits allow for two, three or four walls to be joined at triangular or square intersections. Create a simple change of direction, or link several wall runs together to create multiple enclosed areas.

Powder coated metalwork available in 7 standard colours, as per frames.

Panel elements available in Natural Birch Ply, Valchromat in Light Grey or Black.
