# Eden

Where biophilia and soft furnishings meet. **Eden** planters reimagine the integration of plants in interior spaces by blending biophilia with interior decor. The soft, upholstered, geometric volumes are designed to seamlessly complement interiors alongside soft seating, cushions, and curtains.

Available in four distinct shapes and two heights, **Eden** planters provide endless possibilities for planting configurations. Designed to be used either as standalone pieces, grouped together, or integrated within seating layouts. Eden's varying shapes and heights allow for staggered, dynamic arrangements catering to various aesthetic preferences and spatial requirements.

Timber frames with CME foam padding & powder coated steel trim.

## STEEL CAP COLOURS:

On small orders a minimum charge may apply.

Dimensions

## LINING

# Eden

Eden planters are supplied with a non-waterproof lining suitable for dried or artificial planting.

If real planting is to be used a waterproof membrane is required. Speak to your planting supplier to provide this.

## PRODUCT MATERIAL BREAKDOWN

Material Breakdown Data based on the **Eden** Round Low EDN-R-L, upholstered in Camira Oceanic.

Figures stated will vary depending on model purchased and specification changes.

Recycled data based on supplier information and industry averages. As part of our continuous development processes we will review this information regularly and data may change without notice.

# Warranty Information

## 5 YEAR - NORMAL FAIR WEAR & TEAR

This includes the structure and any foam/padding materials. Fabrics are covered by fabric manufacturers' warranties, usually 5 years, dependant on fabric choice.

Please refer to full **sixteen3** Warranty information document for more details. **sixteen3** Itd reserve the right to update product data information without prior notice.

# Standards

## FLAMABILITY

The foams & fillings of this product meet BS EN 5852: Part 2, in accordance with The Furniture and Furnishings (Fire) (Safety) Regulations 1988.

# **Cleaning & Maintenance**

## GENERAL MAINTENANCE

• Vacuum upholstery regularly to remove dust and grit.

- Most hard surfaces can be cleaned with a soft cloth, dampened with a small amount of water and buffed dry.
- Clean spills and stains quickly to prevent them setting in (see specific fabric care instructions below).
- If being used in a spill/stain prone area specify an appropriate finish with stain-repellent properties.

#### Refer to fabric manufacturers own guidelines for specific information.

#### NATURAL FABRICS

In addition to regular vacuuming, wool and other natura fibres can usually be cleaned using appropriate upholstery shampoo. For a deeper clean it is best that wool be dry cleaned, as over-wetting can cause shrinkage and appearance change. Never apply bleach, ammonia, alkali or strong acids to wool upholstery.

## SYNTHETIC FABRICS

Vacuuming is the best regular maintenance followed by speed of action to remove spills and stains rapidly as soon as they occur. Most synthetic fabrics can be wiped down with a water soaked damp cloth without fear of damaging fibre or removing colour. Stubborn stains can be removed with a quality upholstery shampoo.

## LEATHER

Leather should be regularly dusted with a soft cloth and vacuumed with a soft brush extension. Most types of aniline can also be treated with specialist products to help preserve colour/finish etc. As leather is a natural material, discrepancies in surface texture and 'puddling' in seat areas is to be expected.

## POWDER COATED

Clean surfaces regularly with a slightly damp cloth and a mild solution of soapy water. Buff dry with a soft duster.
