

Maru

Meaning 'wave' in Japanese, Maru reimagines the geometry of our classic hexagonal stool through the language of erosion for a soft and relaxed design. Like its forbears, Maru is easily combined to create interesting landscapes with dynamic, nomadic seating to perch yourself or your things. Available in 3 different heights with low profile glides for dexterity and easy collaboration.

Made by hand in Britain, from the ground up, with an FSC® softwood, MDF and plywood frame supporting a new generation foam that utilises recycled polyols.

SUSTAINABILITY

20%	RECYCLED CONTENT
98%	RECYCLABLE

This product has been designed using high quality materials and craftsmanship to ensure its longevity, however at the end of this product's life it can be returned to **sixteen3** for refurbishment or recycling.

For FSC® Chain of Custody specify when ordering.

Warranty Information

5 YEAR – NORMAL FAIR WEAR & TEAR

This includes the structure and any foam/padding materials.
Fabrics are covered by fabric manufacturers' warranties, usually 5 years, dependant on fabric choice.

Please refer to full **sixteen3** Warranty information document for more details.
sixteen3 ltd reserve the right to update product data information without prior notice.

Standards

FLAMMABILITY

The foams & fillings of this product meet BS EN 5852: Part 2, in accordance with The Furniture and Furnishings (Fire) (Safety) Regulations 1988.

CONSTRUCTION

Designed to meet & exceed BS EN 16139: 2013 – Strength, Durability and Safety Requirements for non-domestic seating.

Cleaning & Maintenance

GENERAL MAINTENANCE

- Vacuum upholstery regularly to remove dust and grit
- Most hard surfaces can be cleaned with a soft cloth, dampened with a small amount of water and buffed dry
- Clean spills and stains quickly to prevent them setting in (see specific fabric care instructions below)
- If being used in a spill/stain prone area specify an appropriate finish with stain-repellent properties
- Bases should be checked and tightened periodically to reduce wear

Refer to fabric manufacturers own guidelines for specific information.

NATURAL FABRICS

In addition to regular vacuuming, wool and other natural fibres can usually be cleaned using appropriate upholstery shampoo. For a deeper clean it is best that wool be dry cleaned, as over-wetting can cause shrinkage and appearance change. Never apply bleach, ammonia, alkali or strong acids to wool upholstery.

SYNTHETIC FABRICS

Vacuuming is the best regular maintenance followed by speed of action to remove spills and stains rapidly as soon as they occur. Most synthetic fabrics can be wiped down with a water soaked damp cloth without fear of damaging fibre or removing colour. Stubborn stains can be removed with a quality upholstery shampoo.

LEATHER

Leather should be regularly dusted with a soft cloth and vacuumed with a soft brush extension.
Most types of aniline can also be treated with specialist products to help preserve colour/finish etc.
As leather is a natural material, discrepancies in surface texture and 'puddling' in seat areas is to be expected.
